We can even assist with freight claims on direct manufacturer shipments, project financing and more!

ELLIOTT EMPLOYEE RESOURCES FOR INVENTORY MANAGEMENT

Sometimes projects are so big that it makes sense to have staff on-site dedicated to inventory maintenance and management. We can make this happen. You can have your very own Elliott Electric Supply facilities, materials, and personnel on hand. We'll make sure you have everything you need at all times!

INVENTORY SERVICES

HUGE INVENTORIES

Elliott Electric Supply has over 145 locations, with over \$140 million in inventory. This means over 100,000 different types of items and parts are available through our locations and distribution centers. Our business is modeled on the simple concept of having what you need, in-stock, all the time—something that's increasingly rare among the competition.

PRODUCT AVAILABILITY

Our system tracks live inventory levels, and we provide you this data in real time. We transfer between our numerous locations, expedite orders from the manufacturer, provide 24/7 emergency orders and hotshot deliveries. Chances are it's in your local store, if not, it's usually only a day away. If we don't have it, we'll get it!

REAL-TIME INVENTORY DATA

We believe it's crucial for you to know where your material is at any given moment. That's why our system tracks live inventory data at every Elliott Electric Supply location, as well as materials on delivery or transfer.

SPECIALTY INVENTORY MANAGEMENT

PROJECT STORAGE / JOBS THROUGH STOCK

Our space can be your space. If your project has limited room for materials, we can store materials with us for a storage fee. We'll set up a shipment schedule to bring you the right stuff at the right time.

AUTOMATED INVENTORY MANAGEMENT (AIM)

We've developed an all-in-one procurement system which can integrate directly with your storage facilities or stocked vehicles. AIM tracks live data across multiple inventory sites to automate your replenishment process. There are two levels for AIM: AIM Basic for consignment inventories or AIM Pro, which is also referred to as CRIB Management.

WAREHOUSE / INVENTORY AREA CONSTRUCTION

We can help supply you to design, build, and manage a highly efficient private warehouse, equipped with our custom technology and software systems. Or we can set it all up for you. Our attitude is, "anything is possible" and we're here to provide the best solutions available.

CONSIGNMENT INVENTORIES

DON'T MISS A SALE BECAUSE YOU DON'T HAVE IT

Elliott Electric Supply makes it easy for you to offer a wider range of products to your customers at little to no risk for you with Consignment Inventories. We will monitor what is used and restock your supply with the products you want to be available, so you will never be waiting for an order to arrive.

ONLY PAY FOR WHAT YOU USE

Elliott Electric Supply will provide services to restock your supplies as they are used or missing on a regular schedule—automatically. You will only be billed for what you use, so there won't be any additional costs, wasted material or additional trips to the store to return unused items. With Consignment Inventories, you will always have a truck or warehouse full of the items you want in stock, without additional resources needed to maintain it.

JOB CARTS

JOB CARTS FROM ELLIOTT ELECTRIC SUPPLY MAKE YOUR JOBS GO FASTER!

Elliott Electric Supply's Job Carts are the perfect solution to easily move parts and inventory around your jobsite. Get your material closer to the action to speed up jobs and cut labor costs.

All you need to do is order, and we can deliver a pre-loaded Job Cart with the parts you need. It can then be easily wheeled to the immediate installation area of your job. Concerned about security? All of our Job Carts accept padlocks to ensure only those who need to get parts can get parts.

RACING STRIPES OPTIONAL

Our carts are mobile, so if your job pulls you down an aisle or to multiple floors, Elliott Job Carts follow alongside the work. How fast can you go now?

DIRECT EMAIL FOR INVOICES & STATEMENTS

We support a wide variety of direct email options for statements and invoicing, as well as FTP and traditional fax & mail. All email capabilities can be configured through our website. You can choose separate emails for each invoice, one email with individual attachments for each invoice, or one email with all invoices in a single document.

PURCHASE ORDER NUMBER FORMATTING

We can configure our Purchase Order field to conform to your requirements to avoid billing errors and delays, and can also help avoid using the wrong account.

EASY ORDERING

CUSTOM PART NUMBERS

Use your own part numbers. We can support loading your numbers, so you can enter an order using your catalog number and when we print our ship tickets it will display your part number and ours to keep your receiving departments happy.

CUSTOM LISTS

Custom Lists lets you store lists of products purchased frequently for easy reordering. Items can be easily added to Custom Lists while browsing our products, and quantities can be changed at any time. You can even add multiple copies of a list to your cart. Pre-defined "Featured Lists" can help you get started.

RAPID ENTRY

Rapid Entry allows you to quickly order or quote items using Elliott Part numbers, custom part numbers, or UPC numbers through Item List or Bulk Pad. Item List features Auto-Complete, conveniently listing matching part numbers as you type. Bulk Pad lets you copy and paste parts and quantities directly from a computer.

GET MATERIALS HOW YOU WANT THEM

WILL CALL EXPRESS

What is the difference between Will Call and Will Call Express? Instead of coming to the counter and waiting for a free counter person, you can walk in the Will Call Express and see on a monitor if your order is ready—or better yet, we can send a text notification when your order is ready—and you can pick it up without having to wait on a counter salesman.

FREE SCHEDULED DELIVERIES

We offer free deliveries when scheduled ahead. Same-day scheduled deliveries are often possible. We'll work with you to time deliveries as needed, whether they are daily, weekly, bi-weekly, or monthly scheduled deliveries, which saves fuel, transportation, and storage costs. Some stores also utilize truck-mounted forklifts so we can speed up unloading and put material right where you want it.

GO MOBILE

MOBILE APP

With the Elliott Electric Supply customer app, there are a ton of features customers can use on the go, and more are being added with every update. Order Status, PIN approval, Live Chat, digital catalog, website, events, promotions, products, references and store locations right in your pocket.

TEXT NOTIFICATIONS

You can get select text notifications when your order is ready for pick up on Will Call orders, when your order is put on our delivery truck, when your order is the next stop, and when your order is delivered.

COUNTER PINS

Counter PINs can be setup to secure your accounts from being used without authorization. Anyone who places an order on the counter or comes to pickup a will call will be required to give the correct PIN to complete the transaction on the secured account. PINs can be used verbally or now with our app.
