## 8300HLA Compact Hosp GRD Duplex Recp 20A 125V La

*Pass & Seymour/Legrand*

|                  |                                                                                           |
|------------------|-------------------------------------------------------------------------------------------|
| Catalog Number   | 8300HLA                                                                                   |
| Manufacturer     | Pass & Seymour/Legrand                                                                    |
| Description      | Heavy-Duty Hospital Grade Compact Design Duplex Receptacle<br>Back and Side Wire 20A 125V |
| Weight per unit  | 0.2065 (lbs/each)                                                                         |
| Product Category | Gen Purpose Recept & Surge Pro                                                            |

### Features

|                     |                                                  |
|---------------------|--------------------------------------------------|
| amperage rating     | 20                                               |
| connection          | Back and side wire                               |
| Dielectric Strength | Withstands 2000V minimum                         |
| indoor/outdoor      | Indoor                                           |
| Material            | Nylon                                            |
| Number of Wires     | 3                                                |
| Outlet Type         | Indoor, Commercial                               |
| Poles               | Double Pole                                      |
| Voltage             | 125.0 V                                          |
| Voltage Rating      | 125                                              |
| Wattage             | Electrical power is expressed in Amps and Volts. |
| Wire Size           | 14 - 10                                          |

### Material, Color, and Finish

|        |              |
|--------|--------------|
| Color  | Light Almond |
| Finish | Matte        |

### Dimensions and Weight

|        |       |
|--------|-------|
| Height | 3.281 |
| Width  | .780  |

| Product Type           | Compact HG Dup Rec 20A 125V La                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Special Features       | Impact-resistant nylon face. One-piece heat-treated triple-wipe brass power contacts. Easily accessible break-off line contact connecting tab for split circuit wiring. Corrosion-resistant, zinc-plated steel strap is locked in. Internal screw-pressure-plate back wire and side wire line terminals accept #14 – #10 AWG copper or copper-clad conductors. High strength thermoplastic back body. Back wire holes allow entry of conductor insulation partially into body but not into wiring compartment. Auto-ground clip |
