Features	You can rely on our 3M™ 8420 Cold Shrink Connector Insulator when working with projects involving cable splices or solid dielectric insulated wires. It's also a great choice when you need to insulate secondary splices, direct buried or submersible, and dig-in repairs. The insulator provides physical protection for high-voltage, air-insulated connectors and lugs, and it seals out moisture without losing pressure. ANSI Certified and RoHS 2011/65/EU Compliant, this product is both flexible and durable.
