extra long description	ETN CHFN250GF CH 2-Pole GFCI Breake
Features	Eaton's residential CH circuit breakers provide premium overload
	protection. The Type CH circuit breakers trip to the OFF position,
	eliminating nuisance callbacks. The CHF family also includes a trip
	flag to differentiate between a trip and the breaker being turned
	off. The thermal-magnetic trip curve avoids nuisance tripping on
	mild overloads while reacting almost instantaneously to severe
	short-circuit conditions. Multiple breakers have an internal
	common trip connection to operate all poles simultaneous
