

## Two-Piece Steel Surface Raceway

### Available Factory Prewired

3000® Series Raceway provides wiring capacities for small to medium size installations. Power, communication, or A/V devices can be wired into the raceway for a flush appearance satisfying both aesthetic and functional requirements.

3000 Series Raceway is ideally suited for wiring applications in frequently changing environments such as labs, hospitals and other industrial applications.

3000 Series Raceway shown utilizing data inserts and electrical devices.

3000 Series Single Channel Raceway has an overlapping cover allowing easy installation and future changes.

### FEATURES & BENEFITS

- **Entrance knockouts spaced at regular intervals along length of base.** Allows power wiring, communication, or A/V cables to be brought in at a convenient point.
- **Mounts easily on walls, modular furniture, under raised floors, or over ceiling.** Speeds installation; provides flexibility to bring wiring to points of use.
- **Removable cover.** Provides access to wiring.
- **Accommodates a variety of receptacles, three-pole circuit breaker housings, and other protective devices.** Provides flexibility for sophisticated wiring systems.
- **Complete line of fittings.** Provides a complete wiring solution and allows for interconnection between raceway systems.
- **Available prewired.** Manufactured to specified job site lengths, raceway comes electrically prewired, ready to install. Jobs can be packaged by room, area, floor, or building and shipped per your job site requirements.
- **Electrical device identification for prewired raceway.** See page six for labeling options. Eliminates guesswork or time-consuming circuit tracing and speeds additions and renovations.
- **Compatible with A/V devices by using 5507 Series Faceplates.**
- **Gray baked enamel and ivory ScuffCoat™ finish.** Durable ivory ScuffCoat finish makes a scratch resistant surface.
- **Base and cover cutters.** Manually operated cutters are lightweight and portable. Cutters offer labor savings for any size job and maintain a factory clean and square cut.
- **Datacom connectivity options.** Accepts industry standard and proprietary devices from a wide range of manufacturers to provide a seamless and aesthetically pleasing interface for voice, data, audio, and video applications at the point of use.
- **UL Listed factory multioutlet assemblies.** Listed by Underwriters Laboratories Inc. Multioutlet assemblies file number E15191 Guide (PVGT)/ Fittings file number E41751 Guide (RJPR).
- **UL5 and ADA compliant.** Raceway and fittings meet UL5 specifications and can be installed in conformance with ADA requirements.
- **UL Listed and CSA Certified raceway.** Listed by Underwriters Laboratories Inc. Raceway file number E4376 Guide (RJBT)/ Fittings file number E41751 Guide (RJPR) CSA Certified LR350.

| <b>Submittal Services</b>    | Detailed submittal   | Submittal free   |

## 3000 Series Ordering Specifications for Prewired Applications

Two options available when ordering a prewired job:

3000 Series Raceway shown electrically prewired.

- 1. Detailed Submittal** The detailed submittal will show exactly how each raceway run will be built including lengths, number and type of receptacles, wiring schematics, circuiting information, etc. The contractor and/or distributor must review, clarify any information not clearly indicated on the drawings or specs, approve and return to the factory before production can begin.

---

- 2. Submittal Free** The Wiremold Prewired Checklist is filled out by the contractor or distributor and sent along with plans, casework and specs to the factory. No submittal is required and the project is scheduled for production upon receipt of all necessary information.

## Device and Raceway Labeling Detail for Prewired Applications

- Device labeling is available in the following materials:

  - Gray self-adhesive polyester label with black lettering (standard).
  - Other color self-adhesive polyester labels.
  - Engraved phenolic nameplates with adhesive backing.
- The back of the raceway is labeled with the raceway number and the room or area number(s).

## 3000 Series Raceway Wire Fill Capacities

### 3000 Series Raceway Wire Fill Capacities For Power

## Two-Piece Steel Surface Raceway

### Available Factory Prewired

3000® Series Raceway provides wiring capacities for small to medium size installations. Power, communication, or A/V devices can be wired into the raceway for a flush appearance satisfying both aesthetic and functional requirements.

3000 Series Raceway is ideally suited for wiring applications in frequently changing environments such as labs, hospitals and other industrial applications.

3000 Series Raceway shown utilizing data inserts and electrical devices.

3000 Series Single Channel Raceway has an overlapping cover allowing easy installation and future changes.

### FEATURES & BENEFITS

- **Entrance knockouts spaced at regular intervals along length of base.** Allows power wiring, communication, or A/V cables to be brought in at a convenient point.
- **Mounts easily on walls, modular furniture, under raised floors, or over ceiling.** Speeds installation; provides flexibility to bring wiring to points of use.
- **Removable cover.** Provides access to wiring.
- **Accommodates a variety of receptacles, three-pole circuit breaker housings, and other protective devices.** Provides flexibility for sophisticated wiring systems.
- **Complete line of fittings.** Provides a complete wiring solution and allows for interconnection between raceway systems.
- **Available prewired.** Manufactured to specified job site lengths, raceway comes electrically prewired, ready to install. Jobs can be packaged by room, area, floor, or building and shipped per your job site requirements.
- **Electrical device identification for prewired raceway.** See page six for labeling options. Eliminates guesswork or time-consuming circuit tracing and speeds additions and renovations.
- **Compatible with A/V devices by using 5507 Series Faceplates.**
- **Gray baked enamel and ivory ScuffCoat™ finish.** Durable ivory ScuffCoat finish makes a scratch resistant surface.
- **Base and cover cutters.** Manually operated cutters are lightweight and portable. Cutters offer labor savings for any size job and maintain a factory clean and square cut.
- **Datacom connectivity options.** Accepts industry standard and proprietary devices from a wide range of manufacturers to provide a seamless and aesthetically pleasing interface for voice, data, audio, and video applications at the point of use.
- **UL Listed factory multioutlet assemblies.** Listed by Underwriters Laboratories Inc. Multioutlet assemblies file number E15191 Guide (PVGT)/ Fittings file number E41751 Guide (RJPR).
- **UL5 and ADA compliant.** Raceway and fittings meet UL5 specifications and can be installed in conformance with ADA requirements.
- **UL Listed and CSA Certified raceway.** Listed by Underwriters Laboratories Inc. Raceway file number E4376 Guide (RJBT)/ Fittings file number E41751 Guide (RJPR) CSA Certified LR350.

## 3000 Series Ordering Specifications for Prewired Applications

Two options available when ordering a prewired job:

3000 Series Raceway shown electrically prewired.

- 1. Detailed Submittal** The detailed submittal will show exactly how each raceway run will be built including lengths, number and type of receptacles, wiring schematics, circuiting information, etc. The contractor and/or distributor must review, clarify any information not clearly indicated on the drawings or specs, approve and return to the factory before production can begin.

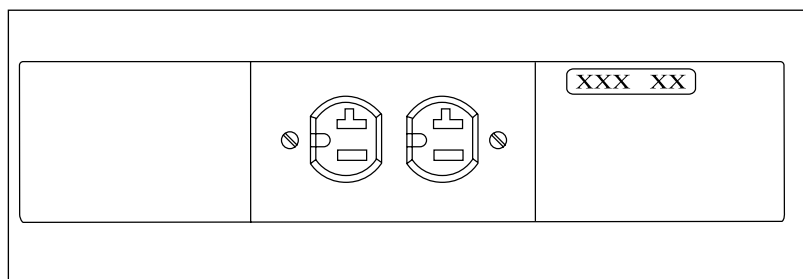

---

- 2. Submittal Free** The Wiremold Prewired Checklist is filled out by the contractor or distributor and sent along with plans, casework and specs to the factory. No submittal is required and the project is scheduled for production upon receipt of all necessary information.

## Device and Raceway Labeling Detail for Prewired Applications

- Device labeling is available in the following materials:

  - Gray self-adhesive polyester label with black lettering (standard).
  - Other color self-adhesive polyester labels.
  - Engraved phenolic nameplates with adhesive backing.
- The back of the raceway is labeled with the raceway number and the room or area number(s).

## 3000 Series Raceway Wire Fill Capacities

### 3000 Series Raceway Wire Fill Capacities For Power

| WIRE SIZE<br>THHN/THWN | O.D.   |       | NUMBER OF CONDUCTORS (40% Fill) |   |   |   |
|------------------------|--------|-------|---------------------------------|---|---|---|
|                        | inches | (mm)  | WITHOUT<br>DEVICES              | WITH DUPLEX/<br>RECT. DEVICES<br>1.59 in. <sup>2</sup> (1025mm) | WITH SURGE/<br>GFCI DEVICES<br>2.30 in. <sup>2</sup> (1485mm) | LARGE SINGLE<br>RECEPTACLES<br>3.00 in. <sup>2</sup> (1935mm) |
